

Net Zero Policy Statement

Acorn Lighting Services

At Acorn Festive Lighting, we believe that lighting up communities should never come at the expense of the planet. We are committed to achieving **Net Zero greenhouse gas emissions** across our operations and supply chain by **2045**, in line with global climate goals and UK government targets.

Our Commitment

We pledge to:

- **Measure and monitor** our carbon footprint annually, including Scope 1, 2, and relevant Scope 3 emissions.
- **Reduce emissions** through energy-efficient technologies, sustainable sourcing, and low-carbon logistics.
- **Transition to renewable energy** across all facilities and operations.
- **Engage suppliers and partners** to align with our Net Zero goals and encourage sustainable practices.
- **Offset residual emissions** using verified carbon offset schemes until full decarbonisation is achieved.

Key Actions

- Replace traditional lighting with **LED and solar-powered alternatives** wherever feasible.
- Optimize delivery routes and vehicles to reduce fuel consumption and transition to **electric fleet vehicles**.
- Minimize waste through **recycling, reuse, and circular design principles**.
- Implement **ISO 14001 Environmental Management System** to ensure continuous improvement.

Collaboration & Transparency

We will:

- Publish annual sustainability reports to track progress.
- Collaborate with local councils, clients, and communities to promote low-impact festive displays.
- Foster a culture of environmental responsibility among staff through training and engagement.

Timeline

- **By 2030:** 50% reduction in Scope 1 and 2 emissions.
- **By 2035:** 75% reduction across all scopes.
- **By 2045:** Achieve Net Zero.
